Hoosier State Chronicles is operated by the Indiana State Library and funded by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act. We seek to provide free, online access to high quality digital images of Indiana's historic newspapers by digitizing our collection, and assisting other organizations in making their collections digitally available. Follow our [Blog](#) to learn more about Hoosier State Chronicles, and read posts about yesterday's news.

This online resource originated with grant funding from the National Endowment for the Humanities that enabled us, in partnership with the Indiana Historical Society, to digitize Indiana newspapers for the National Digital Newspaper Program (NDNP). The Indiana titles digitized through NDNP are also available at the Library of Congress's [Chronicling America](#), along with over 8 million newspaper pages from around the United States. You can find additional digitized Indiana newspapers in [Indiana Memory](#) and also [listed on our blog](#).

The Indiana State Library Newspaper Division has the largest collection of Indiana newspapers either in print, microfilm or digital format. For an overview of the available resources for Indiana newspaper research visit our [website](#).
